This architectural section drawing illustrates a building facade with structural details. The drawing includes a central vertical section showing a staircase and a horizontal section showing a floor slab. The facade is composed of several vertical elements, including a central column and two side columns. The floor levels are indicated by horizontal lines and dimensions: +0.00 (ground level), +0.20 (first floor level), and +0.60 (second floor level). The dimensions of the facade elements are: 270 (width of the central column), 280 (width of the side columns), and 720 (total width of the facade). The drawing also shows the structural details of the floor slabs, including the reinforcement and the connection to the columns. The labels 'veștileu înalt' and 'veștileu înalt 2' are present at the bottom of the drawing, indicating the height of the facade elements.

The drawing shows a two-story building facade. The left half is filled with blue diagonal hatching, while the right half is white. Both sections have a tiled roof with a repeating pattern. The hatched section features a tall chimney on the left, a central entrance with a small porch, and several windows with vertical bars. The white section has a similar chimney on the right, a central entrance with a small porch, and windows with vertical bars. The drawing is a simple line art style with no shading.
